

HEXCORE LABS PRESENTS

The Gamified Cybersecurity Training Franchise AgentHEX

A GAMIFIED CYBERSECURITY PLATFORM THAT TRANSFORMS LEARNERS TO PRACTITIONERS

TOGETHER WITH

Local & International Schools

We power training for teens and youths with zero cybersecurity knowledge all the way to capture-the-flag competitions.

TOGETHER WITH

Training Institutes

We power training for professionals-to-be toward CREST-certification and cybersecurity job-readiness.

We Power Institutions in Cybersecurity Education with Games and Real Life Attack Scenarios. ❤️🛡️🔪🤖

The AgentHEX platform provides an out-of-the-box, cloud-based cybersecurity training experience. Browser-based, learners can access the platform with their computer, tablet or mobile device, anytime.

Hexcore Labs is proud to announce that we are selected as one of 8 companies supported under the Cyberboost Build (1st cohort) by TIG, a collaboration between NUS Enterprise and CSA (Cyber Security Agency of Singapore), and SMU's BIG Programme in 2024.

Dive into our interactive cyber training worlds ↓

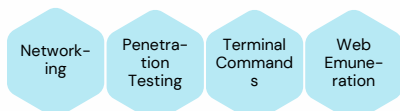

The Training Journey

Our comprehensive Agent Training Journey prepares individuals for a successful career in cybersecurity. The journey is divided into 4 key stages:

AWARENESS

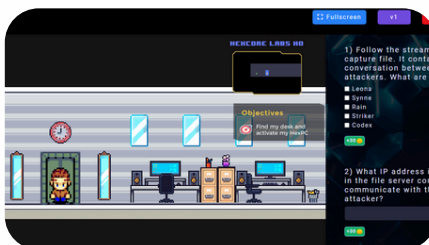

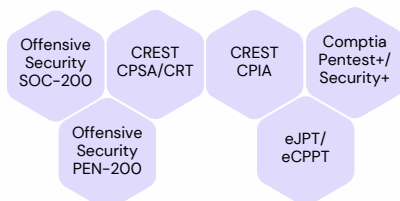

TECHNICAL

CTF COMPETITION TRAINING

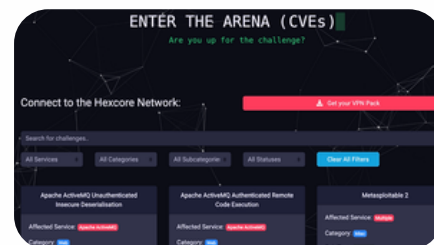

CERTIFICATION TRAINING

FOUNDATIONAL LEVEL

AgentHEX Simulator

Gamified Missions with a complete learning experience, covering personal information protection, malware and phishing recognition, network analysis, web security, and more.

ADVANCED LEVEL

AgentHEX Arena

Test your cybersecurity skills with tailored, hands-on challenges in a reality-based platform. Learn to hack and protect real systems, assessing your technical proficiency in true-to-life scenarios.

CYBER WELLNESS Public Talk | Bootcamp

Up to 15 hours of interactive fun and learning where learners master online safety, scam awareness, digital skills, and cyber ethics.

✔ Suitable for learners of all ages

The AgentHEX Programme

Up to 600 hours of self-learning & guided curriculum. With an asynchronous game and cyber-range sessions, our AgentHex program introduces cybersecurity in an interactive way & train learners toward CTF competitions.

✔ Suitable for learners aged 12-18

CREST Certification Prep Programme

The 200+ hours CREST Certification Prep Programme equips learners with essential skills to ace their CREST tests and advance in their careers.

✔ Suitable for learners 18 & above

Multiple Training Models for your Learners

Institutions who wish to offer an engaging and impactful cybersecurity education with comprehensive training environments, **schedule a demo today!** >>>
